BURNER / SEQUENCE CONTROLLERS (For Big Size Burners)

[Request a Quote](#)

100 / 200 / 300 Series Controllers

For Oil fired Burners/ Boilers:

107 - S - 60, 107 - S - 30 (Standard models with pre purge time of 60 Seconds and 30 seconds)
107 - S - FO (controller for furnace oil)
107 - M (suitable for Nestler Boilers)
107 - TU
LS - 107 (suitable for IAEC make boilers)
150 - P - 6 (equivalent to MA - 150 Controller)

For Gas Fired Burners / Furnaces with UV flame sensing.

Without Pilot flame proving :

307 - GI - S Gas controller, with inbuilt UV Amplifier.
307-GE - S, Gas controller, with external UV Amplifier

With Pilot Flame, Damper, Blower and Ignition terminals :
307 - GID - P (inbuilt Amplifier) & 307 - GE - P (with external amplifier)

For Gas fired Burner / Furnaces with Flame Rod sensing :
207 - FR-S, with pilot valve option.
207 - FRD - AP21 without Pilot. (functionally compatible to LGB - 21) Controller.
